Re: Beat the Goalie Amusement Game

Dear Mr. Berger,

Thank you for submitting the Beat the Goalie amusement game, manufactured by Universal Space, to us for review. We have completed our review.

It is my understanding the game plays as follows:

Players use an automatic launcher to shoot balls into holes to beat the goalie. If a player shoots in more than 10 balls the holes light up. If the player shoots the balls into these holes they win the score posted. Players are awarded tickets based on their score. The game may be played with one or two players.

The Beat the Goalie game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Beat the Goalie amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

A handwritten signature in cursive script that reads "Mark Harris".
